Remarks

1. This curriculum summary was formulated based on the University Law and the Academic Regulations of Hsing Wu University and it was reviewed and passed by the School Curriculum Committee on MARCH 5th, 2024.
2. This department's curriculum design is a four-year program. Students in this department must pass 128 credits in total in order to meet the graduation requirements, including the completion of 28 credits of required courses and 4 selective courses on General Education, and the completion of 32 credits and 66 credits of required professional courses.
3. According to the required subjects listed in this summary, students must take academic semester or yearly courses arranged by the school authorities. Assessing the circumstances, the department will "alternatively offer" courses for students to study. Students' graduation credits will be validated only when they pass the 1st and 2nd semester courses. 4. In addition to taking the required professional courses for the module certificate of this department, students also need to take elective courses of more than 10 credits (including) in the same module.
4 The credits are taken by students who have completed the professional elective subjects but studied the same courses will be invalidated to avoid double counting.
5◎this double circle symbol indicates that a computer classroom is needed.
6Students can only obtain the graduation threshold before the end of the semester before graduation with a grade of B1 (inclusive). If they fail to reach the threshold, they need to participate in the Chinese language remedial or tutoring courses of the Chinese Language Center as a remedial measure.
